KeyPad

Two-way wireless keypad

Wireless stationary control device allows to use numerical passcodes to arm and disarm Ajax security system, activate Night mode, and raise a silent alarm in case of emergency. The device can be mounted by the entry door to provide quick system control.

Maximum Performance

- Communicates at a distance of up to 1,700 m from the hub

- Arms and disarms the entire security system or certain groups, activates the Night mode

- Allows to assign personal passcodes to each user

- Features duress code protection to raise a silent alarm in case users are forced to disarm the system

- Operates up to 2 years on the pre-installed batteries

Effortless Operation

- Numbers light up when the device is touched

- Visual command delivery confirmation

- Two-way communication with the hub for testing and configuring

Simple Installation

- Use the QR code to connect the device to the hub

- Use the SmartBracket to mount the device on a wall without disassembling it

- Open the app to test connection quality and configure device settings

Bulletproof Protection

- Tampering alarm

- Encrypted communication

- Device forgery prevention

- Resistant to brute force password attacks

Tech Specs

- Color: white/black

- Device type: wireless

- Installation: indoors

- Radio communication range: up to 1,700 m

- Compatibility: all hubs & ReX

- Temperature sensor: available

- Duress code: yes

- Protection against password attack: yes

- Battery: 4x AAA, pre-installed

- Battery life: up to 2 years

- Operating temperature range: from -10°C to +40°C

- Permissible humidity: up to 75%

- Dimensions: 150×103×14 mm

- Weight: 197 g
